

“I have used cleaning services before, but always found them to be unreliable. . . . They didn’t turn up on allocated days and sometimes didn’t turn up at all.

For this reason, I was reluctant to try another company, but a friend recommended Merry Mops and convinced me to give them a try.

So far, I can say I’m more than happy with the service they have provided.

I have the same team each service, whom I have become to know and trust.

The standard is always the same and they are completely flexible, should I want more or less doing each week.

It is a service I have become to rely on as it gives me free time to do the things I really want to do.”
